

Salamander Flush-Wiser®

The greener way to flush

Flush-wiser is unique in that it reduces water use without the loss of WC efficiency.

It helps to reduce water consumption without compromising on hygiene.

Flush-wiser is an innovative water saving device for toilets that has enormous environmental benefits, and will save you water and money with every flush.

Simple to install to cistern siphon.

Requires only drilling of one 7 mm hole

Permanent, but adjustable

- Will save the UK millions of litres of water per annum
- Will reduce water and sewerage charges for every organisation
- Attaches directly to the siphon within the WC cistern
- Is adjustable to suit every cistern for optimum water savings
- Saves up to three litres of water per flush
- Reduces water use without loss of WC efficiency
- Will pay for itself within months
- Will last the lifetime of the WC

Specification:

Two piece moulding

Fits on top of cistern siphon

Drill 7 mm hole in top

Flush-Wiser is then a simple push fit

Full WRAS approval
